

Marshall B.
KETCHUM UNIVERSITY
College of Pharmacy

Fullerton, California • Est. 2013

WHERE THE NEXT GENERATION OF GROUNDBREAKING HEALTH CARE LEADERS ARE TRAINED.

In 1904, Marshall B. Ketchum, MD, applied his training in pharmacy and optometry to start a college that would eventually become Marshall B. Ketchum University. With more than 100 years of experience training health care providers, MBKU has both the academics, resources, and facilities to provide a world-class educational experience in the heart of Southern California. With University-owned health care centers just minutes from campus, at MBKU we don't just talk about working alongside other medical professionals—we do it.

THE CURRICULUM

Exclusively a health professions university, MBKU is positioned to train expert clinicians. The College of Pharmacy program was developed with the future of health care in mind. Curriculum is designed to allow graduates eligibility to work as advanced practice pharmacists. Each student participates in an interprofessional environment, benefitting from an active learning style of curriculum delivery.

MBKU's two health care centers – Ketchum Health (Anaheim & Los Angeles) – allow students to be at the forefront of competent patient-centric health care, with current and relevant programs.

“With a very modern, interactive and integrative style of teaching that incorporates professors’ practical experience along with their updated knowledge of the profession, I am confident I am getting the best education in preparation for my future career.”

HAKAM JAMEEL, BA
STUDENT PHARMACIST, CLASS OF 2021, CLASS PRESIDENT

“I instantly connected with certain faculty members, asking about their current research while sharing my own interests. I had an interest in mental health and by reaching out to the psychiatric pharmacist at MBKU, I was able to carve a more exclusive journey, unique to my own interests.”

TIFFANY KHIEU, BS

STUDENT PHARMACIST, CLASS OF 2021,
MBKU EXTRACURRICULAR COMMITTEE CHAIR,
MBKU CPHA-ASP CHAPTER TREASURER

THE PROGRAM

FULL ACADEMIC AND CAREER SUPPORT

Collaborative learning, small groups and class sizes, and interprofessional education all prepare students to have a competitive edge in the health care industry. From access to mentors, accessible leadership roles, and initiating charter organizations—these are what bolster students for entrance into residency programs or into the career path of their choice.

HANDS-ON LEARNING

Approximately 50% of your curricular hours consist of lab and experiential activities.

FACILITIES

Students will attend classes in our newly renovated Health Professions Building. Classrooms are equipped with updated technology to enhance the learning experience. The HPB is also the location of our distinguished and dedicated faculty – allowing students to easily engage with all of their instructors on a regular basis.

MEDICAL SPANISH

Core curriculum includes a medical Spanish course that is offered in the first year and then reinforced throughout the first 3 years.

NAPLEX PREPARATION

Curriculum includes a comprehensive review of proven test-taking strategies and skills.

APHA CERTIFICATIONS

Students earn these five certifications from the American Pharmacists Association (APhA):

- Delivering Medication Therapy Management Services
- Pharmacy-Based Cardiovascular Disease Risk Management
- Pharmacy-Based Immunization Delivery
- Pharmacist and Patient-Centered Diabetes Care
- Pharmacy-Based Travel Health Services

Additional certifications are also available for students who want to expand their knowledge and scope of practice.

THE PATHWAY

Prerequisite pathways to entrance in the College of Pharmacy require 48 semester (69 quarter) credits as specified below. The Pharmacy College Admission Test (PCAT) is not required. Only students without a bachelor's degree or those that completed their undergraduate coursework at a foreign institution will be required to take the PCAT.

COURSES REQUIRED

- **General Biology** (min 6 semester units/9 quarter units)
- **General Chemistry** (min 6 semester units/9 quarter units)
- **Organic Chemistry** (min 6 semester units/9 quarter units)
- **Microbiology, General or Medical** (min 3 semester units/4 quarter units)
- **Human Anatomy** (min 3 semester units/4 quarter units)
- **Human Physiology** (min 3 semester units/4 quarter units)
- **Calculus** (min 3 semester units/4 quarter units)
- **General Psychology** (min 3 semester units/4 quarter units)
- **Economics** (min 3 semester units/4 quarter units)
- **English** (min 6 semester units/8 quarter units)
- **Behavioral Science** (min 3 semester units/4 quarter units)
- **Communications** (min 3 semester units/4 quarter units)

COMPETITIVE APPLICANTS

The most competitive applicants have taken courses in biochemistry, genetics, physics, statistics, leadership development and cultural diversity. Additional consideration will be given to those with volunteer, patient care, pharmacy and/or military experience.

All coursework prerequisites must be completed at a regionally accredited institution in the U.S. or Canada with a grade of C or better; pass grade will be accepted. Completion of admissions requirements and coursework prerequisites does not guarantee an interview or admission to the program.
