

**Marshall B.
KETCHUM UNIVERSITY**
School of Physician Assistant Studies

Fullerton, California • Est. 2011

WHERE THE NEXT GENERATION OF GROUNDBREAKING HEALTH CARE LEADERS ARE EDUCATED

In 1904, Marshall B. Ketchum, MD, applied his training in pharmacy and optometry to start a college that would eventually become Marshall B. Ketchum University. With more than 100 years of experience training health care providers, MBKU has both the academics, resources and facilities to provide a world-class educational experience in the heart of Southern California.

The School of PA Studies program was the first accredited PA program in Orange County and boasts one of the most desirable student-to-faculty ratios in the United States. With the University-owned family medicine and eye care centers just minutes from campus, at MBKU we don't just talk about working alongside other medical professionals—we do it.

THE CURRICULUM

The College of Health Sciences' School of Physician Assistant Studies offers a 27-month, post-baccalaureate program leading to the degree of Master of Medical Science.

The systems-based modular curriculum incorporates courses taught in an organized and integrated sequence with a strong emphasis on active learning.

Low student-faculty ratios (8:1), combined with collaborative community service experiences, give the PA program a collegial, family-like atmosphere, where faculty know students by name.

"I would describe the education that I received at MBKU's School of PA Studies as priceless. I had passionate professors and lecturers, and feel comfortable approaching faculty with ideas, questions and anything on my mind. They are invested in student success!"

AARON HUNRO, PA-C

CLASS OF 2020, MBKU PRE-PA MENTORSHIP CLUB CO-PRESIDENT,
MBKU CAPA REPRESENTATIVE

“MBKU instilled the value of being a life-long learner in order to provide the best quality care for my future patients. The leadership certificate program equipped me to better serve as an empowering and compassionate leader in the PA community.”

VICTORIA CALLAHAN, PA-C
CLASS PRESIDENT, CLASS OF 2019

THE PROGRAM

Innovative teaching modalities ensure students receive a top-notch education, not only to meet their board requirements, but to ensure they are prepared to deliver the highest quality patient care. Students participate in interprofessional education courses and supervised patient interactions at external rotations, including clinical rotations at Ketchum Health's Family Medicine Clinic, just seven miles away. Upon graduation, all students will have completed rotations in underserved areas, where approximately thirty percent of graduates currently practice.

CLINICAL ROTATIONS

During the Clinical phase, students participate in clinical education rotations with highly qualified and passionate preceptors who provide valuable mentoring and hands-on experiences in behavioral health, emergency medicine, family medicine, internal medicine, pediatrics, surgery, and women's health, plus an elective setting. All students will complete at least one rotation in an underserved area.

MASTER'S CAPSTONE PROJECT

Under the guidance of a faculty advisor, students use evidence-based principles to identify a health-care need within the community and develop and implement a project to help mitigate the need.

ADMISSIONS REQUIREMENTS

MBKU's School of PA Studies require a baccalaureate degree from a regionally accredited college or university, or an equivalent institution. To be considered for admission, all applicants must complete an application through CASPA and necessary prerequisite requirements.

PREREQUISITE COURSES* *minimum 3 semester or 4 quarter units:*

- **Microbiology with lab**
- **Human Anatomy with lab**
- **Human Physiology with lab**
- **Biochemistry or Organic Chemistry** (lab not required)
- **Genetics** (lab not required)
- **Statistics**
- **General Psychology**
- **Other Biological Science**

WE RECOMMEND APPLICANTS POSSESS A MINIMUM OF THE FOLLOWING:

- Overall GPA: 3.0
- Science GPA: 3.0
- Community Service

OTHER REQUIREMENTS

- 2,000 hours of verifiable, direct, hands-on patient care experience
- (3) letters of recommendation
- Supplemental Application
- GRE not required

All coursework prerequisites must be completed at a regionally accredited institution in the U.S. or Canada.

Human Anatomy with lab and Human Physiology with lab must be taken within the last seven years.

This time frame does not apply for the other courses. Completion of admissions requirements and coursework prerequisites does not guarantee an interview or admission to the program.

ACCREDITATION

The Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA) has granted **Accreditation-Continued** status to the **Marshall B. Ketchum University Physician Assistant Program** sponsored by **Marshall B. Ketchum University**. Accreditation-Continued is an accreditation status granted when a currently accredited program is in compliance with the ARC-PA Standards.

Accreditation remains in effect until the program closes or withdraws from the accreditation process or until accreditation is withdrawn for failure to comply with the Standards. The approximate date for the next validation review of the program by the ARC-PA will be **March 2029**. The review date is contingent upon continued compliance with the Accreditation Standards and ARC-PA policy.
