

Training Requirements for Non-Traditional Vaccinators

This training requirement is for optometrists and postgraduate training licensees whose primary responsibility is only to administer the COVID-19 vaccine (e.g., mass vaccination clinic, licensed faculty) under the authority of another responsible institution/organization/entity.

You will need to complete the following training before participating in mass vaccination clinics or other institution or community-sponsored clinics.

To take the test, please check the MD box if an OD check box is not available.

Please complete all three training modules.
